

International Concrete Repair Institute, Inc., CMST Program:

ICRI Education Session

Thursday, July 8, 2021: 8:00 AM – 12:00 PM (8:00 AM – 8:30 AM Registration)

Description

Individuals who wish to gain knowledge on concrete slab moisture-related flooring problems and test methods can register for the Education Session only. This 3-4 hour educational presentation is given by the certification program instructors, nationally known experts in the fields of concrete flooring problems, testing and mitigation. This session is open to anyone.

Education Course

Thursday, July 8, 2021: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Thursday, July 8, 2021: 12:00 PM – 2:00 PM – Study & Question Period

Thursday, July 8, 2021: 2:00 PM – 3:00 PM – Written Exam

Description

Education Course participants are not seeking to become certified as a concrete slab moisture testing technician but have an active interest in learning more about the test methods, what information the tests provide, and how the tests are to be properly performed. Those that attend the 3-4 hour Education Session and successfully pass the Written Examination will receive a Certificate of Achievement from ICRI.

First Recertification – Written Exam

Thursday, July 8, 2021: 8:00 AM – 12:00 PM - Education Session (optional)

Thursday, July 8, 2021: 2:00 PM – 3:00 PM – Written Exam

Description

To restore and maintain active certification status, recertification is required on a 5-year basis. First recertification (5 years after original certification) requires passing a Written Examination that covers the five (5) applicable ASTM Standards. If desired, first recertification participants can sit in on the 3-4 hour Education Session at no additional fee. Successful recertification will provide certification for a period of five (5) years from the date of completion and passing of all applicable recertification requirements and a new certificate and wallet card will be issued by ICRI.

Demonstration and Workshop

Thursday, July 8, 2021: 3:30 PM – 6:00 PM

Description

As an option, applicants for the Certification Course without ICRI approved previous hands-on slab moisture testing experience, or applicants who wish to enhance their slab moisture testing ability, can take the Demonstration and Workshop. All five (5) ASTM tests included in the Education and Certification Courses will be demonstrated with opportunity for hands-on testing and training by our instructors/judges. Participation in this session will fulfill the requirement of previous hands-on slab moisture testing experience necessary for acceptance into the full Certification Course.

Certification Course

Thursday, July 8, 2021: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Thursday, July 8, 2021: 12:00 PM – 2:00 PM – Study & Question Period

Thursday, July 8, 2021: 2:00 PM – 3:00 PM – Written Exam

Friday, July 9, 2021: 8:00 AM – 5:00 PM (1 hour time slot per participant, assigned on Day 1)

Description

The full Certification Course is for those seeking to become an ICRI Concrete Slab Moisture Testing Technician – Grade 1. Participants attend the 3-4 hour Education Session, and take the written exam and a hands-on field testing performance exam. By passing both the written and performance exams, an ICRI Concrete Slab Moisture Testing Technician – Grade 1 certification will be issued by ICRI, and the individual will receive a certificate and a wallet card. The individual also has the option of being added to the ICRI Certified Concrete Slab Moisture Testing Technician database on the ICRI website. Pre-qualification for acceptance into the full Certification Course is required and is based on the applicant's previous hands-on moisture testing experience, which must be approved by ICRI. Participants can register for the discounted Certification Course with Demonstration and Workshop option and have the previous testing experience requirement waived. ICRI Concrete Slab Moisture Testing Technician Certification-Grade 1 certification is valid for a period of five (5) years from the date of completion and passing of all applicable certification requirements.

Certification Course with Demonstration and Workshop

Thursday, July 8, 2021: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Thursday, July 8, 2021: 12:00 PM – 2:00 PM – Study & Question Period

Thursday, July 8, 2021: 2:00 PM – 3:00 PM – Written Exam

Thursday, July 8, 2021: 3:30 PM – 6:00 PM – Demonstration and Workshop

Friday, July 9, 2021: 8:00 AM – 5:00 PM (1 hour time slot per participant, assigned on Day 1)

Description

Participants registering for the Certification Course with Demonstration Workshop combination receive a discount on the Demonstration and Workshop. The full Certification Course is for those seeking to become an ICRI Concrete Slab Moisture Testing Technician – Grade 1. Participants attend the 3-4 hour Education Session, and take the written exam and a hands-on field testing performance exam. Completing the Demonstration and Workshop will waive the previous testing experience requirement necessary for taking the Certification Course. All five (5) ASTM tests included in the Certification Course will be demonstrated with opportunity for hands-on testing and training by our instructors/judges.

By passing both the written and performance exams, an ICRI Concrete Slab Moisture Testing Technician – Grade 1 certification will be issued by ICRI, and the individual will receive a certificate and a wallet card. ICRI Concrete Slab Moisture Testing Technician Certification-Grade 1 certification is valid for a period of five (5) years from the date of completion and passing of all applicable certification requirements.

Second Recertification – Certification Course

Thursday, July 8, 2021: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Thursday, July 8, 2021: 12:00 PM – 2:00 PM – Study & Question Period

Thursday, July 8, 2021: 2:00 PM – 3:00 PM – Written Exam

Friday, July 9, 2021: 8:00 AM – 5:00 PM (1 hour time slot per participant, assigned on Day 1)

Description

Second recertification (5+ years after first recertification) requires again completing and passing the Certification Course in its entirety (the Education Session, and both the written and performance exams). Successful recertification will provide certification for a period of five (5) years from the date of completion and passing of all applicable recertification requirements and a new certificate and wallet card will be issued by ICRI.
